Home Visitation Summary Data

[E] Identify # of Successful Visits	[F] Identify # of Unsuccessful Visits	Total # Surveys Completed	[G] Total # of Homes Visited

Reporting of Survey Information

Please attach completed surveys to this report form.

The reporting of survey information will have to be compiled separately. Once compiled and summarized, the survey information will be extremely useful in providing valuable feedback for school staff and overall School-Family support. The survey summary will heighten awareness of parent perspectives on school strengths, improvement opportunities and preparation for programs or activities relative to the interest and needs of each school's parent population.
